## **Davenport Group Named One of 2019 Tech Elite Solution Providers by CRN®**

### ***Tech Elite 250 List Recognizes Highest Achieving IT Solution Providers in Vendor Certifications***

**St. Paul, MN, March 25, 2019** – Davenport Group announced today that [CRN®](#), a brand of [The Channel Company](#), has named Davenport Group to its 2019 Tech Elite 250 list. This annual list honors a select group of North American IT solution providers that have earned the highest number of advanced technical certifications from leading technology suppliers, scaled to their company size. These companies have distinguished themselves with multiple, top-level IT certifications, specializations, and partner program designations from the industry's most prestigious technology providers.

To compile this annual list, The Channel Company's research group and CRN editors work together to identify the most customer-beneficial technical certifications in the North American IT channel. Companies who have earned these elite designations— which enable solution providers to deliver premium products, services and customer support—are then selected from a pool of online applicants.

Davenport Group is an exclusive, all-in Dell EMC Titanium Partner and a VMware Enterprise Partner committed to employing the most capable engineering talent in the industry and obtaining the highest technology certifications. Through significant investments in training coupled with hands-on, real-life experience, Davenport Group engineers design and implement solutions for IT Transformation.

“CRN's Tech Elite 250 list recognizes solution providers with extensive technical knowledge and premier certifications,” said Bob Skelley, CEO of The Channel Company. “Pursuit of vendor certifications and broader skill sets in a wide range of technologies and IT practices, proves a solution provider is committed to delivering maximum business value from those technologies and giving their customers the highest level of service.”

“The seemingly unlimited capabilities of today's modern datacenter bring endless choice and complexity to the fore, and we're honored to be recognized by CRN for our ability to address these unique technological challenges on behalf of our customers,” said Dan McCormick, Executive Vice President of Davenport Group. “Our engineering team is constantly expanding their knowledge, experience, and certifications in order to design and implement Dell EMC and VMware solutions for the modern datacenter.”

Coverage of the Tech Elite 250 will be featured in the April issue of CRN, and online at [www.CRN.com/TechElite250](http://www.CRN.com/TechElite250).
