This annual list ranks the largest North American IT channel partner organizations by revenue. The Solution Provider 500 is the industry standard for recognizing the highest performing technology integrators, strategic service providers and IT consultants. It is the industry's predominant channel partner list, serving as a valuable resource for technology vendors looking to partner with top solution providers.

Through their longstanding relationship with Dell Technologies, Davenport Group architects and implements solutions designed to fuel the innovation and profitability of today's most demanding businesses. Davenport Group's technical capabilities and consultative approach transforms technology possibilities into business realities. This relentless focus on real-world outcomes has helped them grow their business and retain their status on the Solution Provider 500 list year after year.

"We are honored to be recognized by CRN for the value that we bring to our customers. Having the leading IT Transformation company by our side in Dell Technologies means that innovation is built into every solution that we deploy," said Dan McCormick, Executive Vice President of Davenport Group. We gratefully acknowledge the trust that's been placed in our hands with every engagement we undertake."

"The companies on this year's list represent an incredible combined revenue of \$320 billion, a sum that attests to their success in staying ahead of rapidly changing market demands," said Bob Skelley, CEO of The Channel Company. "Congratulations to the solution provider organizations leading the way in digital transformation and the latest technology services."
